RISHIN KALRA

Chief Product Officer — Auto Tech & IoT · MapmyIndia (CE Info Systems Ltd.)

Chief Technology Officer · Gtropy Systems (A MapmyIndia Company)

Geospatial Tech   ADAS & HD Maps   Fleet Intelligence   Automotive IoT   Connected Mobility

ABOUT

Rishin Kalra is a technology executive with over **18 years of expertise** across Automotive, ADAS, Connected Mobility, Autonomous Driving, IoT, Electric Vehicles, Drones, and Geospatial Intelligence. He concurrently serves as **Chief Product Officer — Auto Tech & IoT** at **MapmyIndia** — India's premier mapping and geospatial platform — and as **Chief Technology Officer** at **Gtropy Systems**, powering over **600,000 live fleet vehicles** across India.

An entrepreneur at heart, Rishin founded **Megacarpool** — India's first tech-driven carpooling startup — and was a key architect who incubated MapmyIndia's IoT business. He combines deep technical mastery with a **360-degree product perspective**, translating complex technology into intelligent, commercially impactful products.

KEY ACHIEVEMENTS

- **1st Place — Digital India Aatmanirbhar Bharat App Innovation Challenge** (MeitY + Atal Innovation Mission, 2020)
- Architected the **Mappls App** — MapmyIndia's flagship navigation platform
- Built **InTouch IoT Platform** — 600,000+ live fleet vehicles
- Delivered **Video Telematics, School Bus Monitoring, Workforce Management & Car Health Diagnostics**
- Spearheaded **HD Maps, ADAS & Vision/Infotainment** for OEM integration
- Built **350+ partner network**; multiple "Pat on the Back" awards

SPEAKING TOPICS

- **Future of Connected Mobility** — V2X, OTA & intelligent transport
- **Geospatial Intelligence & HD Maps** — enabling ADAS & autonomous driving
- **Fleet Intelligence & IoT at Scale** — building for 600,000+ vehicles
- **Building in India for the World** — product lessons from MapmyIndia
- **From Founder to C-Suite** — entrepreneurial thinking at scale
- **EVs & Drones** — next frontiers of the mobility tech stack

SPEAKING PROFILE

Rishin brings the rare combination of a founder's urgency and C-suite strategic depth. His talks are grounded in current real-world experience — known for sharp insights, concrete examples, and making complex technical subjects accessible to all audiences. Available for keynotes, panel discussions, fireside chats, executive workshops, and media.

PAST ENGAGEMENTS

Convergence India Expo · Keynote — Connected Mobility & Geospatial Intelligence

Bharat Tech Summit 2026 · National Forum — Automotive IoT & Fleet Intelligence

Automotive CXO Roundtables · Multiple editions — ADAS, HD Maps & OEM Integration

EDUCATION & BACKGROUND

B.E. Computer Science Maharshi Dayanand University, Rohtak · 2001–2005

Early Career Software Engineer, Xansa (Sopra Steria), London — SAP migration, Centrica

Based in Delhi NCR · Available for engagements across India and internationally
